

Technical Specifications

Product	Description codes	Dimensions H x W x D(mm)	Power rating	Rapid draw off	Capacity	Output per hour	Recovery per minute	Boiling time*
EB3	Automatic fill water boiler	600x275x315	3kW	10.3 litres 18 pints 70 cups		25.3 litres 45 pints 170 cups	0.42 litres 0.74 pints	39 mins
EB4	Automatic fill water boiler	600x345x315	4.5kW	14.4 litres 25 pints 95 cups		35.3 litres 62 pints 235 cups	0.59 litres 1.04 pints	41 mins
EB6	Automatic fill water boiler	600x440x315	6kW	19 litres 33 pints 125 cups		43.2 litres 76 pints 290 cups	0.72 litres 1.27 pints	44 mins
EB6T	Automatic fill water boiler (twin tap)	600x440x315	6kW	19 litres 33 pints 125 cups		43.2 litres 76 pints 290 cups	0.72 litres 1.27 pints	44 mins
LWB2	Manual fill water boiler	380x300x300	3kW		9 litres 2 gallons			30 mins
LWB4	Manual fill water boiler	500x300x300	3kW		18 litres 4 gallons			33 mins
LWB6	Manual fill water boiler	500x365x365	3kW		27 litres 6 gallons			35 mins
LCM2	Pour and serve coffee machine	450x340x200	2.5kW		1.7 litres per jug	15 litres 26 pints 110 cups		5.5 mins per jug
LCP	Single hot plate	50x200x200	0.1kW					
LCP2	Double hot plate	50x400x200	0.2kW					

* Boiling times shown represent the following:
 • Automatic fill water boilers: the time to heat to full capacity from empty
 • Manual fill water boilers: the time to heat full capacity to boiling (from cold)
 • Model LCM2: the time to complete a brew cycle

Optional Accessories

Range	Product Code	Description
Beverage	BR33	Wall mounting kit for EB3
Beverage	BR34	Wall mounting kit for EB4
Beverage	BR36	Wall mounting kit for EB6 and EB6T
Beverage	CF1	Flowtech filter head
Beverage	CFC1	Flowtech cartridge
Beverage	FHK01	Flowtech filter head kit
Beverage	EB/EF	Set of 4 extension feet for automatic fill water boilers
Beverage	FI19	Filter papers for LCM2
Beverage	JU02	Glass jug for LCM2

QUALITY GUARANTEED

You can choose Lincat products with confidence. All products in this leaflet are backed by the reassurance of a comprehensive UK twelve months parts and labour warranty.

Product code	Power rating	Rapid draw off
EB6	6kW	19 litres

Product code	Power rating	Rapid draw off
EB4	4.5kW	14.4 litres

Product code	Power rating	Rapid draw off
EB3	3kW	10.3 litres

Twin tap model EB6T for situations where higher output is demanded.

Automatic Fill Water Boilers

Behind the stylish and modern exterior of Lincat's automatic water boilers you will find many functional improvements. Descaling has been made simple by the inclusion of an all-new easy descale system, with steam emissions reduced by way of an internal condensing function. The boilers also come with attractive spill trays and stainless steel backs as standard. Ideal for front of house as well as behind the scenes in busy kitchens, hotels, pubs, clubs, hospitals and canteens.

- Stylish modern design
- Internal condensing for reduced steam emission
- Electronic level sensors
- Automatic fill
- CE and Water Regulations Advisory Scheme approved
- Easy descale system
- High output, low maintenance
- Boil-dry protection
- Non-drip tap
- WRAS approved

FLOWTECH SCALE REDUCER AND FILTER

In some areas, where the mains water supply is subject to unusually high levels of purification treatment, permanently heated water may develop a slight odour or chemical taste. Whilst the water remains perfectly safe to drink, customers may wish to install an in-line Flowtech filter system to ensure a high taste quality.

The Flowtech filter system also acts as an efficient scale reducer, essential in hard water areas, where a build-up of limescale can lead to reduced efficiency and even premature breakdown of the water boiler. The fitting of a Flowtech filter is highly recommended by Lincat. (Servicing calls related to scale will not be covered by guarantee.)

Product code	Power rating	Capacity
LWB2	3kW	2 gallons / 9L

Product code	Power rating	Capacity
LWB4	3kW	4 gallons / 18L

Product code	Power rating	Capacity
LWB6	3kW	6 gallons / 27L

Manual Fill Water Boilers

Ideal for either continuous use during the busiest periods or occasional use at quieter times. Lincat manual fill water boilers provide a constant flow of boiling water for tea, instant coffee, soups or hot chocolate. Stylish, durable and easy to use, Lincat manual water boilers are designed to perform and built to last. Ideal for clubs, community and leisure centres, small offices and snack bars.

- Strong, durable construction in mirror finish stainless steel
- Easy to descale and clean
- High quality non-drip taps
- Simmerstat control
- CE approved
- Compact design
- Boil-dry protection
- 13 amp power supply

Coffee Machine & Hot Plates

The Lincat pour & serve coffee machine is simple and easy to use - simply place coffee in the filter funnel and pour cold water into the top - the machine will do the rest. Spray action saturates the coffee prior to filtration through the stainless steel funnel to give fresh, piping hot coffee. Vitreous enamel hot plates keep the coffee at ideal serving temperature. For additional demand Lincat offers a choice of single or double standby hotplates for keeping extra serving jugs hot.

Product code	Power rating	Capacity per jug
LCM2	2.5kW	1.7L

- Easy to use
- Readily available piping hot coffee
- Supplied complete with jugs, filter papers and sample descaler
- Power rating 2.5kW
- 110 cups / 15L per hour

Product code	Power rating
LCP2	0.2kW

Product code	Power rating
LCP	0.1kW
